April 29, 2010

Dear Board Members and Friends,

My husband and I, as representatives of GRACE Cares, just returned from 6 days in the Dominican Republic. Our Project Director Ruben and his family hosted us at their farm. We were able to visit La Lomita a small community of 42 families GRACE Cares has supported since 2006 by putting in a water well, building a community center and providing school supplies. The clean faces of the children showed us how helpful the water well has been. This Saturday the community center is going to be used by a mobile medical team. Thanks to all of you!

Our 12 year-old niece Grace came with us. Grace raised \$1,500 to start an egg farm that will hopefully be a sustainable business for the community of Baitoa and provide food for La Lomita (See more on Grace's visit on April 1, 2010's Press Release).

We were so impressed by how respected Ruben is by his community and how much he helps them.

I hope all of you can visit the Dominican Republic and meet with him and his family sometime!

Zoe Kopp, President
